ORGANIZATION

OF THE

CITY GOVERNMENT, JANUARY 2, 1911.

The City Council met in the council room the evening of the first Monday in January, Mayor Sawyer presiding. A small amount of business was transacted. Mayor Sawyer spoke briefly as follows:

Mayor Sawyer's Valedictory.

On finishing my second term as Mayor of Franklin, I wish to take this opportunity of thanking the Councilmen and also the citizens of Franklin for their loyal support of my administration. We have just finished a very successful year, considering some of the unforeseen accidents, etc., which we have encountered. Our debt except for these unavoidable expenditures, has not been materially increased, while on the other hand, we have a year of good results accomplished and various conditions bettered.

I shall not go into detail regarding our year's work, but refer you to the City Report, which is soon forthcoming. I think unless there is some further business, we are now ready to turn the reins of Franklin's government over to the hands of the Mayor and Council of 1911, and a motion to adjourn is now in order.

The oath of office was administered to Mayor-elect Seth W. Jones and Councilmen Jabez R. Smith, Arthur Murray Hancock and Edmond J. Garneau by City Clerk Frank H. Daniell, after which the council adjourned to city hall, where the new council was called to order by Mayor Jones, and after prayer by Rev. H. C. McDougall, Mayor Jones gave his inaugural address and this was followed by the election of officers.

Mayor Jones' Inaugural.

Gentlemen of the City Council:

Deeply moved by the confidence which my fellow citizens have placed in me, I can make no better return than the oath, which I have just taken before God and these witnesses, but in conformity to the custom on similar occasions, I am going to make a few remarks at this time.

A year has passed by since the annual meeting of the City Council of 1910, and we are the chosen people assembled here this evening to organize the Franklin City Government for the business year of 1911.

Let us be diligent, prudent and discreet in all our actions and endeavor to make a record that will compare favorably with the records of those who have preceded us. We must presume that we have been elected to our several positions because the citizens of Franklin have confidence in our integrity and business ability, and it is our duty to endeavor to maintain this confidence in its fullest splendor. I believe, and I think all members of this Council will agree with me on this point, that the best way to do this is to maintain harmony among ourselves, and work with all our united energy for the benefit of Franklin. We may differ on many municipal problems that come before us for solution, but if we hope to make a successful solution of them, we must not be provincial. It is our duty to be candid, careful and considerate in all our actions, and to treat every citizen of our city, no matter what his station in life, on a basis of fairness and equality.

We are none of us infallible and may make mistakes, but if we are deliberate in our actions, and thereby convince our fellow citizens that we are sincere, our shortcomings will undoubtedly be overlooked by them.

I am now going to make a few suggestions and recommendations, which I think might make your work easier and be better for our city.

I believe that nine standing committees can handle the business of this council better than more for the following reasons:

First, it is oftentimes more trouble to get a committee together than to do a little extra business when they are assembled.

Second, the business of the Committees which I propose to consolidate overlaps to some extent in some cases.

Third, the most of our sewerage system has been laid and there will be much less committee work in this department in the future than there has been in the past. I, therefore, suggest that the standing committee on highways and the standing committee on sewers be consolidated and known as the committee on highways and sewers. Also, that the standing committee on public buildings and the standing committee on public parks be consolidated and known as the committee on public lands and buildings, making the standing committees of 1911 as follows :

- 1 Highways and Sewers.
- 2 Fire Department.
- 3 Police.
- 4 Schools.
- 5 Public Lands and Buildings.
- 6 Ordinances.
- 7 Street Lights.
- 8 Cemeteries.
- 9 Finance.

City Civil Engineer.

I suggest for your consideration the appointment of a competent city civil engineer. Most cities find it expedient to employ one, and Franklin has found it necessary to employ a civil engineer by the day a great part of the time for several years.

It is my opinion that the City would save money in the long run by employing a competent engineer at a reasonable salary, even if he should not have full charge of any department for a while.

We have many thousands of dollars buried up in the ground in the form of sewers, water-pipes, pipes from our central heating plant, and so forth, and we must take care of what we have as well as lay extensions from time to time. We need better street bounds and have new streets to lay out occasionally. We need better grades on many of our highways, and we need a good up to date map of Franklin, and there are a lot of incidental things coming up every year which require the services of a civil engineer.

Plumbing Inspection.

We have installed an up to date system of drainage. Now, we should have a competent plumbing inspector to insure us that we are getting the full benefit of our outlay, for if the plumbing is imperfect, and the disease producing germs and foul gases are escaping into our homes, our money expended on sewers is largely thrown away. Possibly we might employ a city engineer who would be competent to look after this plumbing question also.

Meat Inspection.

All meats received from the West and the large packing houses are supposed to have passed a thorough inspection so that no diseased meats reach our markets from that source, but our native meats are not inspected, and for the benefit of the health of our community I recommend the appointment of a competent, energetic meat inspector, whose duty shall be to see that no meat gets into the hands of the consumer in Franklin which has not been thoroughly inspected and found free from disease.

Milk Inspection.

I believe arrangement has already been made by which samples of milk are sent to the State Chemist for analysis from time to time, but I do not consider this enough. I believe we should have a competent milk inspector, who would not only do this, but would visit the different dairies supplying Franklin, several times a year without notice to the owners, and thus discover whether or not the cows are healthy, the hovels cleanly kept, the milk receptacles properly cleansed, the milk properly cooled, and anything else that might have a bearing on the purity of the milk.

Sealer of Weights and Measures.

In all up to date cities and towns of the size of our city they have a competent sealer of weights and measures, and Franklin should have a good energetic one, who will see that all scales in use are kept properly balanced and that all measures are standard so that the purchaser will in all cases get the full amount of what he buys.

Moth Pest.

This is a comparatively new proposition to contend with, and I am not prepared to say whether it is cheaper

or better to pick the nests, as we have been doing in the past, or to spray the trees. I believe our very efficient tree warden is more familiar with this question than anyone else in Franklin, and I am in favor of taking the matter up with him and getting any other information available before making any contract.

Taxation.

All citizens and property owners should bear their just individual proportions of the public tax. The equalization of this burden depends largely upon our board of assessors. I think we have a very efficient board, and that they are all three men who are trying to do their best, and that they are open to any suggestions that may help to equalize this burden. They should take especial care that stocks of goods are taxed as high in proportion as real estate, and that each and every piece of real estate, is taxed in proportion to its value as compared with every other piece of real estate in Franklin.

I fear that much money, bank stock, bonds, mortgages and other securities escape taxation, causing an unequal and unjust burden to be borne by property which is in sight.

I fear some evasion of taxation is also secured by borrowing money just before April first each year to be used to balance up against bank stock and other securities, and no doubt considerable evasion is secured by the return of false inventories to the assessors.

I recommend that the assessors perform their duties in the future even more fearlessly than in the past, and there is no doubt in my mind but what they will have the sympathy and praise of a large majority of Franklin citizens.

Schools.

I am well aware of the fact that our City Charter takes the running of the schools practically out of our hands, yet we elect the members of the Board of Education, one each year, and appropriate the school money. I am heartily in favor of the movement already started for School Hygiene, and medical inspection of our school children, for the future of our city depends upon our children, thus the better their health and surroundings, and the more they know in their youth of personal hygiene, the more they can do for themselves and their country in the future.

I recommend that the city council use its influence to cause the school board to complete the change in the curriculum of our schools, started several years ago the ultimate end of which was to result in a grammar school course of eight grades and a high school course of four years, thus putting ours on a plane with other school systems throughout the state.

I am in favor of paying our teachers larger salaries, which will enable us to keep good teachers with us longer, as with the exception of a few local teachers, who stay here because it is home, they are bound to go where they can get larger salaries. I feel that with a Merit System, and by abolishing the sub-freshman grade in our high school and cutting down incidental expenses, the salary question can be handled without a very great increase in the school appropriation.

I am not going over all the departments of our City Government as many of my predecessors have done, because I am not familiar with their needs, and believe they are wisely managed, and that this body of men is thoroughly capable of meeting all emergencies that may arise.

We must, however, use our utmost care in making our appropriations for the several departments, and the heads of the departments must be careful to keep within their appropriations.

Our city debt, owing to extraordinary expenses, has become considerably increased during the last six years. We have got our water works, drainage system, heating plant and other extreme necessities very well cared for, and we should now begin to reduce our debt. If we are to make any further improvements, we should levy tax enough to pay for them as we go, and not entail any further obligations upon ourselves and upon those who are to follow us.

Fellow Citizens of Franklin:

I take this opportunity to thank you most sincerely for the great honor you have conferred upon me by electing me to the highest office within your gift. I fully appreciate the honor as well as the great responsibility that goes with it, and I assure you that I shall endeavor to conduct myself in such a manner that you will never have cause to regret that you placed me in this position.

CITY GOVERNMENT.

Organized January 2, 1911.

CITY COUNCIL.

Mayor.

Elected annually on the fourth Tuesday of November. Salary \$200 a year.

SETH W. JONES.

Councilmen.

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	Term Expires.
<i>Ward 1</i> —WILLIAM H. NELSON,	January 1, 1912
WALTER E. DUNLAP,	January 6, 1913
JABEZ R. SMITH,	January 5, 1914
<i>Ward 2</i> —HARRY J. CARBONNEAU,	January 1, 1912
RICHARD W. SULLOWAY,	January 6, 1913
EDMOND J. GARNEAU,	January 5, 1914
<i>Ward 3</i> —CLARENCE P. STEVENS,	January 1, 1912
ALEXANDER A. BEATON,	January 6, 1913
ARTHUR M. HANCOCK,	January 5, 1914

Standing Committees for 1911.

HIGHWAYS AND SEWERS—STEVENS, BEATON, DUNLAP.

FIRE DEPARTMENT—SULLOWAY, GARNEAU, SMITH.

POLICE—NELSON, SULLOWAY, HANCOCK.

SCHOOLS—SMITH, BEATON, CARBONNEAU.

PUBLIC LANDS AND BUILDINGS—DUNLAP, STEVENS, GARNEAU.

ORDINANCES—HANCOCK, CARBONNEAU, NELSON.

STREET LIGHTING—BEATON, DUNLAP, STEVENS.

CEMETERIES—GARNEAU, NELSON, SMITH.

FINANCE—THE MAYOR, HANCOCK, SULLOWAY.

City Clerk.

Elected annually by the City Council. Salary and allowance \$600 a year.

FRANK H. DANIELL.

City Solicitor.

Elected annually by the City Council. Salary \$200 a year.

EDWARD G. LEACH.

Treasurer.

Elected annually by the City Council. Salary and allowance \$150 a year.

FRANK PROCTOR.

Assessors.

Elected annually by the City Council. Salary \$88.33 a year each.

LEWIS W. PHILLIPS..

ICHABOD S. WILLIAMS.

GILBERT G. FELLOWS.

Overseer of the Poor.

Elected annually by the City Council. Salary \$100 a year.

LEWIS W. PHILLIPS.

Highway Commissioner.

Elected annually by the City Council. Salary \$1,000 a year.

WILL GORDON.

Janitor of Memorial Hall.

Elected annually by the City Council. Salary \$300 a year.

SQUIRE DURHAM.

Custodian of City Clock.

Elected annually by the City Council. Salary \$25 a year.

* CYRUS R. ADAMS.

† GEORGE G. FOWLER.

Tax Collector.

Elected annually by the City Council. Salary \$350 a year.

ALFRED G. THOMPSON.

Board of Education.

One member elected annually by the City Council for three years.
No salary.

Term Expires.

JOHN W. STAPLES,	.	.	January 1, 1912
H. C. McDougall,	.	.	January 6, 1913
LEWIS W. PHILLIPS,	.	.	January 2, 1914

*Resigned August 7.

†Elected August 7.

Janitor of Heating Plant.

Elected annually by the City Council. Salary \$400 a year.

SQUIRE DURHAM.

Board of Water Commissioners.

Two members elected annually by the City Council for three years.
No salary. Salary of Clerk \$200 a year.

	Term Expires.
ALVAH W. SULLOWAY, . . .	January 1, 1912
JOHN W. STAPLES, . . .	January 1, 1912
FRANK N. PARSONS, (clerk), . . .	January 6, 1913
GEO. D. MOWE, . . .	January 6, 1913
WARREN M. DRAPER, . . .	January 2, 1914
JASON KIDDER, . . .	January 2, 1914

Superintendent of Water Works.

Appointed by the Water Commissioners.

EPHRAIM L. WALLACE.

Constable.

Elected annually.

ROLLIN E. DAVIS.

Board of Health.

Elected annually by the City Council. Salary of first, \$180; second, \$50;
third, \$25.

WILLIAM E. SMITH, Secretary.

FRANK H. DANIELL,

LEWIS W. PHILLIPS.

City Physician.

Elected annually by the City Council. Salary \$50 per year.

WILLIAM E. SMITH.

City Auditor.

Appointed annually by the Mayor. Salary \$100 per year.

IRVING V. GOSS.

Surveyors of Wood and Lumber.

Appointed annually.

JULIUS B. HALE,

ARTHUR W. JONES,

HARRY E. COLBY,

FRANK L. KNOWLTON,

SCOTT KELLEY.

JOHN W. DRESSER.

HIGHWAY DEPARTMENT.

HIGHWAY COMMISSIONER'S REPORT.

To the Mayor and Council of the City of Franklin:

I herewith submit the following report as Highway Commissioner for the City of Franklin, 1911:

The outside roads were gone over early in the season with the road machine, and were put in good condition. Five thousand feet of State Highway has been built near the Orphans' Home, and fifteen thousand, five hundred and forty-six gallons of Bermudez Road asphalt, and Tarvia X were used in the construction. The Tilton road from Willow Hill has been treated with a coat of Tarvia B. There has been built on Prospect street four hundred feet of four-inch macadam road; on North Main street there have been 600 feet spiked up and recovered. The remainder of the street as far as the Franklin Needle Co. has been spiked up and a little broken stone put on and rolled with the steam roller; on the Sand road (so called) there has been nine hundred feet covered with gravel and hard pan, and the two old wooden bridges, known as the Cate Brook bridges, have been done away with, and one cement, steel, concrete bridge constructed and covered with gravel. The Cross Mill bridge has been built all new. The two iron bridges have been replanked; the north side of Republican bridge has been shingled. There is now on hand by the side of the Hill road stone enough for three-fourths of a mile of macadam road.

WILL GORDON,

Highway Commissioner.

Highway Department as Estimated December 31, 1911.

FIRE DEPARTMENT.

ENGINEERS' REPORT.

To the City Council of the City of Franklin:

The following report for the year, 1911 is submitted:

The manual force of the Fire Department consists of Chief Harry E. Colby and two assistants. The Daniel Webster Steamer Co., 15 men, Edward Wheeler, Captain. The Hook and Ladder Co., No. 1, 15 men, Amedos Rousseau, Captain. Hose Co., No. 1, South Main Street, 10 men, Ned Flanders, Captain.

Location of Apparatus.

Hose Company, No. 1, South Main Street.

One one-horse hose wagon equipped with swinging harness, two extinguishers with extra charges, hose pipes, axes, gates, relief valve, ladder straps, wrenches, spanners, coats, boots and belts.

One one-horse sled.

One 30-foot ladder.

One 25-foot ladder.

1000 feet 2½ inch rubber-lined hose.

Central Station.

One Amoskeag steam fire engine in good working condition, swinging harness, and newly painted.

One one-horse hose wagon with swinging harness, two extinguishers with extra charges, hose pipe, axes, gates, relief valve, ladder straps, spanners, wrenches, hose jacket, coats, hats, boots and belts.

One one-horse sled.

1900 feet 2½ inch hose.

One two-horse Seagrave Hook and Ladder truck in good condition, equipped with swinging harness, two

extinguishers with extra charges, hose pipe, wire cutter, tin roof cutter, ropes, axes, coats, boots, hats, and one deluge set with different size nozzle tips for same.

Hose 3, Central Street, Opposite Paper Mill B.

One hand reel with pipes, wrenches, spanners and 400 feet 2½ inch hose.

Hose 4, Head of Elm Avenue.

One hand reel with pipes, axes, wrenches, spanners and 400 feet 2½ inch hose. One two-wheeled truck equipped with one 21 foot roof ladder, one 28 foot, one 20 foot and one 15 foot ladder.

Hose 5, Pearl Street, near Park Street.

One hand reel with pipes, wrenches, spanners and 400 feet 2½ inch hose.

Hose 6, Sturtevant Street.

One hand reel with pipes, wrenches, spanners and 400 feet 2½ inch hose.

The hand tub has been placed near Beaupres' foundry and also 250 feet 2½ inch second class hose.

There is also one 55 foot extension ladder at City stable.

Pony extinguishers to be used by any person for fire purposes in the vicinity of the places of keeping are stationed at the following places: City hall, 4; Clark's stable, 2; Franklin passenger station, 1, and Mace Heath's stable 1.

During the year the steamer has been painted and two new fire alarm boxes added to the system namely No. 28, in front of freight depot; and 32 on View street, near Dr. Adams'. A deluge set has also been purchased.

Recommendations.

We recommend that the fire committee and engineers be authorized to make arrangements for an automobile to respond to all fires. We also recommend the purchase of 500 feet of hose, a life net and new boxes for the fire alarm system.

Regulations of the Franklin Fire Department.

Adopted Dec. 20, 1909.

Section 1. The fire department, of the City of Franklin, shall be composed of a chief engineer, first assistant engineer, second assistant engineer, third assistant engineer, fourth assistant engineer and a superintendent of fire alarm, who shall each be appointed by the city council; one steamer and hose company to consist of fifteen men, one hose company to consist of ten men and one hook and ladder company to consist of fifteen men.

Section 2. The chief engineer and four assistant engineers shall constitute a board of engineers and shall exercise the power of firewards.

Section 3. The chief engineer and each assistant engineer shall hold his office and perform his duties until his successor takes the oath of office.

Section 4. The City Council, for cause, after a hearing, may remove from office the chief engineer or any assistant engineer.

Chief Engineer.

Section 5. The chief engineer shall have sole command over all persons present at fires whether members of the fire department or not.

Article 1. He shall direct all proper measures for extinguishing fires, protecting property, preserving order at fires, and enforcing laws, ordinances and regulations regarding fires.

Article 2. He shall have charge of and examine into the condition of all fire apparatus, fire alarm system, houses and all fire department property and shall cause needed repairs to be made under the direction of the committee on fire department of the City Council.

Article 3. He shall certify all pay rolls and bills against the department and shall be responsible for the care of all property connected with the fire department.

Article 4. In the absence of the chief engineer the next engineer in rank, who may be present, shall have the power and perform the duties of the chief engineer.

Board of Engineers.

Section 6. The board of engineers shall inspect and make themselves familiar with all shops, factories, hotels, tenement houses, public buildings, halls, churches and schoolhouses once a year, and study the location of all hydrants and generally inform themselves in all matters pertaining to their duties.

Article 1. They shall have control of all persons appointed to serve in any company of the fire department and shall have power to direct and control the labor of all persons present at a fire.

Article 2. They may from time to time make and enforce such regulations for the government of the department as they may deem proper.

Article 3. They may establish such regulations respecting public safety, kindling, guarding, safe-keeping, prevention, and extinguishment of fires, and for the removal of combustibles from any place, and the keeping or storing of explosives, as they think expedient, which shall be signed by a major part of them, approved by the Council and recorded by the city clerk, and attested copies posted in two or more public places in the city thirty days before they shall take effect.

(a) Penalties not exceeding ten dollars for each offense may be prescribed for breach of such regulations and such regulations shall remain in force until altered or annulled.

Article 4. They shall examine the qualifications and fitness of all applicants for membership in the department and no person, whose application has not been approved by a majority of the board of engineers shall become a member of any company.

Article 5. At the first meeting in each year, after the qualification of the engineers, they shall proceed to elect, by majority vote, a clerk of the board of engineers, a captain, a lieutenant, and a clerk for each company and an engineer, assistant engineer and stoker of the steamer,

each of whom shall hold office until his successor is elected.

Article 6. Any member of any company may be dismissed from the department or from office in a company by two-thirds vote of the board present.

Article 7. They shall in conjunction with the annual report of the chief engineer, make recommendations as to the needs of the department.

Article 8. Every engineer shall cause any fire deemed by him to be dangerous, in any street or elsewhere, to be extinguished or removed.

Superintendent of Fire Alarm.

Section 7. The fire alarm system shall be under the control of the chief engineer, with direct supervision by a superintendent of fire alarm who shall be elected by the Council.

Committee on Fire Department.

Section 8. The committee on fire department of the City Council, with the approval of the chief engineer and subject to direction by the Council, shall purchase all supplies in connection with the department.

Article 1. They shall direct all repairs of the houses, fire alarm system, and fire apparatus.

Article 2. They in conjunction with the board of engineers shall hold meetings on the last Wednesday of each month.

Adopted Dec. 5 and 19, 1910.

1. That the salary of the chief engineer be \$100 a year and 50 cents per hour for actual service at fires. It is understood under this arrangement that he shall not put in any time except for fires.

2. That the number of assistant engineers be reduced to two and that the salaries of each shall be \$30 per year and 50 cents per hour for actual service at fires. Also that two alternates from the regular force be appointed by the chief engineer on January 1, to serve in absence of the assistant engineer, at a proportionate salary.

3. That the clerk of the Board of Engineers shall receive a salary of \$15 per year for his services.

4. That the members of the various companies shall each receive a salary of \$20 per year and 50 cents for the

first hour and 35 per hour thereafter for actual service at fires, except a brush fire when they shall receive 25 cents per hour.

5. That for fire practice or work at the engine house all members of the department shall receive 25 cents per hour in every instance.

6. That the engineer of the steamer shall receive \$1.00 per hour for actual service at fires, 50 cents per hour for practice and 35 cents per hour for cleaning and repairing.

7. That the superintendent of fire alarm shall attend to all repairs on the fire alarm system. Under this head it is understood that he shall at all times keep the line clear, and for any work in this connection, including the cutting of trees or branches, he shall not receive any extra compensation. It is further understood that in instances that tappers are changed, it shall not be considered extra work except where new wiring is called for. That he shall attend to the winding of all the clocks and the tappers and he shall see to the procuring of supplies for the whole system, including the storage batteries at the Franklin Light & Power station, subject to the approval of the chief engineer and Fire Department Committee.

BOARD OF HEALTH.

To the Honorable Mayor and Council of the City of Franklin:

The Board of Health respectfully submit the following report for the year 1911:

The following table shows number of contagious diseases reported during each month of the year and the deaths resulting therefrom:

Months	Diphtheria		Scarlet Fever		Typhoid Fever		Small-pox		Measles	
	Cases	Deaths	Cases	Deaths	Cases	Deaths	Cases	Deaths	Cases	Deaths
January	1	2	1
February	2	1	10
March	2	2	1	17
April	1	1	1	5	1
May	4	2	3
June	4
July	3
August	2
September	3
October	2
November	2
December	3	1
Totals	27	1	6	3	1	32	7

The total number of deaths during the entire year is ninety-six.

The number of bodies brought to the city from other places, for which burial permits were issued is twenty-nine.

The clerical duties of this board have been promptly and efficiently attended to.

In concluding this report we wish to extend our thanks to the Honorable Mayor and Councilmen for their hearty support given us in the performance of our duties.

W. E. SMITH,
FRANK H. DANIELL,
L. W. PHILLIPS.

CITY SOLICITOR'S REPORT.

To the Mayor and Council of the City of Franklin:

The suit of James O'Donnell against the city which was pending at the beginning of the year for injuries received while working on the new reservoir, was settled by the payment of \$50.00.

Settlement on this basis was made because it was considered cheaper than to try it even if the city was successful.

The petition of the city for the consent of the Superior Court to the discontinuance of the Slide road, also pending at the beginning of the year, has been allowed and that portion of the Slide road situate in Franklin is no longer a public highway.

The petition of the city for the discontinuance of the highway from the cemetery at Lower Village to the west side of the next railroad crossing south, was filed at the October term last, and referred to the County Commissioners. A hearing has been had but no report yet filed. As this highway was not laid out by the selectmen the consent of the court is required for its discontinuance.

A suit was brought by Delia B. Nixon at the last term of court claiming damages in the sum of \$500 to her basement wall by reason of the surface sewer freezing up last April and thereby causing the water to flow into her basement. The city denied liability but offered to compromise and pay \$50.00. The offer was rejected by plaintiff and the case tried by the jury in October and the city obtained a verdict in its favor as not liable. The costs paid by plaintiff reduced the expense to the city of the trial to about \$36. The mayor and highway committee are entitled to a large measure of credit for this result as they spent considerable time without charge in looking up evidence. This is the only case tried by the jury in which the city was interested since the case against Norcross for causing damage to the covered bridge by floating logs about thirty years ago.

The city has this year for the first time taxed the Eastman Falls property to the Boston and Maine railroad.

The railroad has also been taxed for this property by the state, claiming that the town has no right to tax it because the same is used for the general purposes of the

railroad. The railroad has petitioned for an abatement and if the petition is denied will probably appeal to the court. While the question is not free from doubt, I have advised the city assessors, the only way to determine our rights was to assess the tax and let the court decide it.

it shall be found that we cannot tax it as the law now is, an effort should be made at the next session of the legislature to have the law amended.

EDWARD G. LEACH,

City Solicitor.

POLLS, VALUATION, AND TAXES ASSESSED.

The number of polls, and the taxes assessed on the real and personal estate in the city of Franklin since 1895:

Water Rates.

All customers are supplied through meters. The minimum charge is six dollars per year, which entitles the consumer to 2,000 cubic feet during the year. Rentals are collected quarterly. For the first 1,000 feet or less in each quarter the charge is 30 cents per 100; for the excess over 1,000 feet used each quarter, 20 cents per hundred feet is charged.

Upon all quarterly bills exceeding \$12.50 a discount of 50 per cent of the excess over \$12.50 is made.

No charge is made for private hydrants or for automatic sprinkler service.

The interest on the balance remaining of the advance made by the city in 1909 has been paid from the water rentals. The expenditure involved in renewing the penstock supplying power to the Bow street station, and other necessary repairs rendered it impossible to make any payment on the principal.

Franklin, N. H., Dec. 30, 1911.

Water Commissioners.

FRANKLIN PUBLIC LIBRARY.

LIBRARIAN'S REPORT.

To the Trustees of the Public Library:

For five years the Public Library has been finding itself and has been seeking to prove itself a useful factor in the intellectual life of the city. The splendid showing in regard to our circulation continues in spite of a decrease in the expenditure for new books. How long this will continue is a question, for the reading public demands new and inviting literature, and the appropriation should be substantially increased that its wants may be supplied.

A community owes the library a reasonable financial support. Many cities think that fifty cents per capita is none too large, while Franklin has been paying a scant twenty-three cents per capita for the maintenance of its library for the past five years. It is not just to any public enterprise to start it and then starve it to a running criticism of its poverty.

The library is the only possible school for the busy adult and it should receive a generous support from the tax-payers. The librarian would like to report that one thousand books had been added to the shelves during 1911 instead of the 428 that she is obliged to state.

The public demands that the building should be open every afternoon and evening, and this should be done at once. This would require a regular assistant but the community would be greatly benefitted by the extra expenditure.

The registration catalogue has been increased by 436 names during the year. This takes no count of the many transients who use the library for a short time.

The library has offered its hospitality to the public for two days aside from its regular working hours; on the Fourth of July when it was open from seven in the morning until twelve at night; and on November 15, on the occasion of Judge Ben Lindsay's lecture before the Woman's club.

The most substantial gain in the circulation of non-fiction was in Fine Arts, the number of books issued in this line exceeding by 150 any previous year. This is doubtless due to the activity of the Art Class of the Woman's Club.

Various citizens have presented 59 volumes during the year bringing the total number of accessions to 8254.

The circulation according to class is as follows :

General works, bound magazines, etc.	87
Philosophy,	124
Religion	133
Sociology,	165
Philology	16
Natural Science	159
Useful Arts	194
Fine Arts	298
Literature	811
Travel	658
History	562
Biography	307
	<hr/>
	3514

Magazines, 1204 copies.

Adult fiction	24424
Juvenile fiction	6656
Juvenile non-fiction	1681
French books	1267
	<hr/>
Total 37,542.	34028

According to month is as follows :

January	3194
February	3429
March	3916
April	3533
May	2736
June	2559
July	2983
August	2907
September	2720
October	2716
November	3291
December	3558
	<hr/>
Total	37,542

Respectfully submitted,

MRS. BARRON SHIRLEY.

TREASURER'S REPORT.

To the Trustees of the Public Library:

I hand you herewith my report as treasurer of the Franklin Public Library. You will note that the expense maintenance for the past year is apparently less than the appropriation, for the first time in several years. If, however, all outstanding bills had been presented this balance of \$28.93 would be entirely wiped out and a deficit shown.

Balance January 1, 1911.....	\$3,872 39	
Appropriation	1,500 00	
Appropriation, branch.....	200 00	
Received from fines.....	111 71	
Book sales.....	9 33	
Catalogues sold.....	2 75	
Rent of hall.....	32 50	
Income from Clark fund.....	60 00	
Savings bank dividends.....	142 43	
		\$5,931 11
Expense for maintenance.....	\$1,471 07	
Expense for books.....	671 57	
Expense for branch.....	141 17	
		\$2,283 81
Balance January 1, 1912,		\$3,647 30

In addition to the above balance the library has the Clark fund of \$1,000 and the Morrison fund of \$500. The income from these funds is available for the purchase of books.

W. F. DANIELL, Jr., *Treasurer.*

FRANK PROCTOR,

Treasurer.

SUPERINTENDENT'S REPORT.

To the Board of Education:

I submit herewith my fifth annual report, the eleventh in this series of reports.

There have been fewer changes in the teaching force than last year. In the high school and elementary schools of the High School building there have been no resignations. Another assistant, Miss Alice Poole, has been secured for the high school. In the Hancock building Miss Betsey Elkins was succeeded by Miss Lillias Brewer, Miss Eva Hunt by Miss Ruth Preston, Miss Loverin was granted a year's leave of absence to be succeeded by Miss Lura Sargent. Miss Ella Chase was transferred to the Morrison school. At the Nesmith the only change is in the grammar school room, where Miss Bessie Rowell succeeded Miss Ruth Brocklebank. At Shaw's Corner Miss Helen Buswell took Mrs. Williams' place. Miss Emery gave up her work temporarily at the close of the spring term on account of her health, but returned in January. Mr. Osgood was absent a month during the fall term owing to a serious operation. The work of the Nesmith fourth grade was broken during the spring term by reason of Miss Smith's unfortunate accident, and the Falls sixth grade was interrupted by Miss Kinney's three weeks' illness. In addition to these there has been a rather large number of sessions lost owing to temporary absence of teachers.

The School Plant.

Since the appearance of the last report all of the buildings have been kalsomined throughout and the Nesmith interior has been varnished.

Three large windows were added to the east side of the high school room, thereby increasing the lighting area by about sixty percent.

Grades four, five, six, seven and eight in the High School building have been equipped with 25 watt Tungsten lamps.

During the winter vacation all the floors were washed and all the buildings fumigated with formaldehyde, the books being placed on the desks with leaves open to allow the easy access of the fumes.

Curtains are being tried out in two rooms as a substitute for the wooden blinds. It is almost needless to say that they are a vast improvement.

Sanitary drinking-fountains are now installed throughout. Liquid soap and paper towels are in their experimental stage with us.

All of these changes help the health conditions under which the work is done. In like wise attention should be given this year to an improvement in the school plant by furnishing all the rooms with curtains, putting at least a dozen adjustable desks in the rooms where the need is greatest and following up the plan of termly fumigation. While, ultimately, all the old desks should be replaced by adjustable furniture, a few of the latter in each room would serve to relieve the cramped and strained positions that some of the pupils are now obliged to assume.

Teachers and Salaries.

Too much cannot be said in commendation of the faithful and painstaking school teacher; indeed, too little is often said in appreciation of the quiet, unassuming efforts that constitute the rule of daily life with the majority of teachers. Franklin has been, for the most part, fortunate in securing and retaining the services of good teachers. I esteem highly the sense of trustworthiness that characterizes our teachers. There is a personal responsibility and loyalty to the cause that means much to our school children.

The Board of Education have taken recognition of these character elements and professional merits by increasing the salary maximum of grade teachers from twelve to fifteen dollars and by increasing the maximum of high school teachers. This action of the Board has already been repaid by the renewed zeal of all the teachers and the refusal of several to accept better positions elsewhere.

Health.

During the fall term Miss Summers of the Franklin City Hospital was engaged to spend a day each week in the schools. Thus far her work has consisted merely in studying the situation, getting acquainted with the children and doing emergency work as required. The details of her work are given in her report, which is appended.

I reported last year at length upon the development of medical inspection, as carried on by physicians or nurses, or both. It is generally conceded that the school nurse is a most important factor in school inspection as she can follow up cases and inspect more freely than could a school physician. Miss Summers has planned her work in conjunction with the Concord school nurse who has met with unusual success. It would seem that we have made a start that should meet with the approval of local practitioners and parents as well.

Following the detection of several diphtheria cases, Miss Summers inspected the throats of the children in those particular rooms. This prompt service in time of emergency should create confidence on the part of the parents. I hope that this year may see a similar definite action regarding inspection of eyes, ears, throats and teeth. The last named especially need attention.

The small-pox epidemic last winter did not seriously disturb the progress of the schools, although the sickness due to vaccination caused some absence on the part of several scholars. There are now very few children who have not complied with the vaccination requirements and the parents of these have been notified of their obligation.

Care and Cleaning.

About five percent of our appropriation is expended for care and cleaning. We have progressed in our understanding and administration of this important work. Our buildings are kept as clean as a semi-weekly sweeping and termly washing of the floors can avail. But there are seasons of the year when two sweepings a week are far from adequate. In the spring and fall muddy seasons a floor may be swept at night and the next morning at recess it needs another sweeping. In many cases the children do this, but this is a questionable practice except in the higher grades, and here the disposition is sometimes lacking. From the facts given in the table below we may see how our practice compares with that of other cities. These facts were furnished by 758 cities in the United States at the request of the Department of Child Hygiene of the Russell Sage Foundation in their report entitled "What American Cities Are Doing for the Health of Their School Children."

FREQUENCY	Cities where floors are washed with frequency indicated	Cities where floors are swept with frequency indicated	Cities where windows are washed with frequency indicated
Daily	1	574	1
Once in two days	1	49	1
Once in three days	3	86*	..
Weekly	36	6	22
Once in two weeks	27	2	8
Once in three weeks	8	..	5
Monthly	135	2	117
Once in two months	50	1	84
Once in three months	140*	..	139
Once in five months	115	2	111
Once a year	57	..	31*
As needed	68	10	139
Never	44	..	5
Not reporting	73	26	95
	758	758	758

The figures starred (*) indicate the class to which Franklin belongs.

Franklin's rank may be stated in this way: in the matter of washing floors one-third of the cities reporting are ahead; in sweeping, three-fourths of the cities are ahead; in washing windows, two-thirds of the cities are ahead of Franklin. Stated in another way Franklin's floor-washing average is sixty-six and two-thirds percent, sweeping average twenty-five percent and window-washing average thirty-three and one-third percent. There seems to be chance for improvement here. The dusting of the rooms has never been wholly satisfactory. We expect our janitors to do this, but the mere getting over the ground in the High and Hancock buildings takes an amount of time that totals more than the actual time available. I am not sure but that we would do wisely to require a certain amount of this work done by the pupils under the direction of the teacher. There are some forms of domestic science teaching less valuable than this, and other forms far less necessary.

Promotion, Retardation and Loss.

Under this heading the local school board sends to the State Superintendent the following tabulation which, with the exception of number "9", is gathered from the registers of the teachers:

Grade	I	II	III	IV	V	VI	VII	VIII
1. Number of pupils promoted to the next grade during, or at the end of the school year.....	36	40	56	63	63	51	47	49
2. Number of pupils in grade at end of the year not promoted to next grade.....	22	5	15	6	1	1	7	5
3. Number of pupils in grade at end of year who have been there two years.....	12	1	3	3	0	0	2	1
4. Number of pupils in grade at end of year who have been there three years....	0	0	0	0	0	0	0	0
5. Number who have been there more than three years.....	0	0	0	0	0	0	0	0
6. Number of pupils who have left school and whose school life has presumably ended during the year	0	0	0	0	0	1	3	3
7. Average age of class at beginning of year 1910....	6 $\frac{4}{12}$	8	9 $\frac{4}{12}$	10	11	11 $\frac{10}{12}$	12 $\frac{10}{12}$	13 $\frac{7}{12}$
8. Average age of class at beginning of year 1909....	6 $\frac{4}{12}$	7 $\frac{10}{12}$	9 $\frac{5}{12}$	10 $\frac{7}{12}$	11 $\frac{5}{12}$	13 $\frac{3}{12}$	13 $\frac{3}{12}$	14
9. Average age of class at beginning of the year throughout the state of New Hampshire 1910	6 $\frac{3}{12}$	7 $\frac{8}{12}$	8 $\frac{11}{12}$	9 $\frac{9}{12}$	10 $\frac{9}{12}$	11 $\frac{9}{12}$	12 $\frac{6}{12}$	13 $\frac{1}{12}$

The number of failures reported in Grade 1 in the above table is large, much too large. Twenty-two failures in a membership of 58 is 38 percent of failures. Eleven per cent failed in 1910 and 22 per cent in 1909 in this grade. The average per cent of failures in the state in this grade is 32 per cent. Many of the failures in 1911 were caused by non-attendance due to sickness. Half of the failures in grade three are children who simply could not grasp the work although in some cases older than the average for the grade. Half of the failures in grade seven are children who were doubly promoted but who failed to qualify in June. In every case of failure one is perfectly justified in asking if the teacher has done her part. To the best of my knowledge these children have been

given not only the regular class work but special help by the teacher outside. More could not be done unless an assistant were employed to give them special work. The fact that we have 62 failures in one year is an indication that such extra help would be useful. Admittedly some of these children are "misfits" and the trouble is not in the amount but in the kind of work given them.

Numbers "7" and "8" are a comparison of average ages of children at the beginning of two successive years. The figures extend over too brief a time to lead to any conclusions but they are interesting in comparison with number "9" which is an average in the state for 1910, the figures being based upon the reports from sixty-one school systems. Our 1910 record shows several months' variation from this standard in grades 2, 3, 4 and 5; but a close approximation in grades 1, 6, 7, and 8. The following figures are interesting and somewhat more valuable:

	1907	1908	1909	1910
Average age of class at beginning of grade 8	14	14 1-12	14	13 7-12

The indication here is that scholars entered the eighth grade in 1910 from five to six months younger than in any of the three years preceeding. This means that the average age for entering the high school is correspondingly less than in the preceding years. This fact has a direct bearing upon the much-discussed five-year high school course and may be partly explained by double promotion. During the last three years and especially last year individual pupils have been advanced a grade when their qualifications merited the promotion. Last April 45 children were advanced to the next higher grade with the expectation that their work would blend into that grade before June and so that they could continue to the next higher class in September. Ten of the children failed to meet the requirements and are therefore this year doing the work of the grade next above the one where they were before the double promotion. They have sustained no loss. The other 35 are doing work two grades above their first position that ranges from "good" to "excellent." They have gained a year. In three instances these doubly promoted children rank very near if not at the top of their class. Another year the candidates for double promotion must be selected with greater

care and the change must be made earlier in the year.

Loss. The number of children who have left school permanently as shown under number "6" is not large, being four and one-half per cent of the total enrollment of the grades where the loss occurred. The average loss in the state is nine per cent. Three of these children were doing almost nothing in their school work. The other four were doing work of good rank and would have profited by continuing in school.

The Work.

The various tables in this report indicate to the careful reader some of the results of the school-room work. The most important results cannot be tabulated or reduced to per cent values. We must seek in our future citizenship an answer to the question, "Does it pay?" I shall note some of the changes and interesting developments of the year.

Reading. Our use of the "Progressive Road to Reading" this year with the earlier introduction of phonetic work is accompanied by satisfactory results thus far.

Number Work in the first grade was deferred until the end of the fall term so that the children might spend the most of their effort on reading and in order that they might not be confused by what is for them almost another language.

Penmanship is being taught to good advantage in nearly all the schools. A few of the teachers have not mastered their own writing sufficiently to teach confidently and to good advantage. Specimens of the penmanship are being taken in the upper grades at the beginning, middle and end of each term to assist in judging the progress of the pupils.

Geography. The teaching of this subject has been considerably modified. The more formal geography begins in grade five with the study of the United States. After a brief survey of physical features, drainage and climate of the country the class center their interest upon what the people are doing, namely the occupations and industries. They find certain basal industries as agriculture, lumbering, mining, quarrying, hunting and fishing. These furnish the "raw materials," and naturally lead to the allied industries, manufacturing, transportation and commerce, which have to do with the perfecting and distribu-

tion of the raw material. The details of physical geography are considered last of all when the children begin to inquire why certain industries are found in certain localities. Much purposeful letter-writing has been done and several classes have secured interesting specimens, pictures and descriptive material thereby. Classes have visited the farm and dairy, grain mill, foundry, box-shop, paper mill and woolen mill. I must express here my appreciation of the patience and courtesy of owners, superintendents, foremen and workmen who have greatly assisted our study.

Franklin Junior City. The grades in the high school building are organized as wards under a charter like that of Franklin. The duties and responsibilities of citizenship are taught in a very direct fashion. Among these are conduct of ward meeting, posting of warrant, marking and counting ballots, respect for officers, and duties of various officers. Before the election in September the various candidates made speeches in the different wards for the purpose of setting forth their principles. The successful candidate was duly inaugurated and made a speech to the citizens assembled in the lower corridor. The corridors, rooms and play-grounds are under the supervision of the city marshal and his officers who have done good work this year in enforcing the city ordinances. In connection with this work twenty children from the seventh and eighth grades went down to Concord to attend the sessions of the General Court.

Nesmith School. Conditions here are better than I have ever known them to be. The teachers work as a unit in securing building discipline and the children respond heartily. The marching form of dismissal instituted by Miss Rowell has added to the general discipline. The office was fitted up during the spring term by the pupils of grades seven and eight in a very comfortable and attractive manner. Rugs, drapery curtains, shades, rockers, table and couch make it a pleasant rest room. The Woman's Christian Temperance Union have been adding much to the comfort and health of the children who bring cold lunches by serving hot cocoa at noon. The children gather in an unoccupied room that is supplied with desks and eat their lunches in very pleasant surroundings. From twenty to forty children are served each day.

Prize Speaking. A contest was held last June among the pupils of the five upper grades at the Falls and the reaction upon the schools in stimulating better expression warrants our continuing the contest another year on a broader basis.

Victor Talking Machine. Through the efforts of the children a No. 3 machine and fair assortment of records have been added to our equipment. A complete set of "Il Trovatore" has rendered possible several instructive and entertaining concerts. On several occasions records have been played to supplement instruction in school work such as German, music and English speaking.

The High School.

The teaching force in the high school has not changed except for the addition of another assistant. This means a great deal in the economy of time and effort. The weekly faculty meetings which the principal holds deal very thoroughly with every problem of the school. The per cent of attendance is higher than that of any other school while the tardiness averages only a fraction more than one per pupil for the year.

The Sub-freshman class was considerably increased last September by the delegation from Hill which numbered ten.

Five-year Course. This has been the subject of general consideration for some time. Principal Swett discussed the advantages of the course in his report of last year. Still the main objection, the taking of five years to do four year's work, will not down. If this is the principal point of contention I venture to show how the seeming disadvantage may be counterbalanced. I noted under "double promotion" that thirty-five children gained a grade last year. Of these, six went from the seventh to the eighth grade in April and thence to the high school in September. It is evident that all of these scholars are reducing the five years' course to the equivalent of four.

Thirty-five children represent five per cent of the enrollment in the grades. It would seem that a larger number could make this promotion but it must be remembered that this represents only one year. It will require several year's data to show that this percent is really much larger.

It is very proper to assume that these doubly promoted

scholars are the ones who are most likely to continue studying after they leave high school. Those who cannot gain a year will, in general, be the ones who will profit most by the five year's course although they are older when they graduate.

There is no reason why adaptations of the high school program cannot be made to allow an ambitious scholar to prepare for college in four years. In this connection, however, I wish to note some of the requirements for double promotion aside from natural ability. They are: abounding good health, maturity of mind, disposition to work and regular attendance. These presuppose a strong home influence which will furnish the children with two things; good habits of living and work, and an environment which stimulates culture and refinement.

The advantages of the five years' course are so evident and the disadvantages so susceptible of correction that it would be unwise at present to make a change.

New Studies. The present curricula give a broad range of general subjects. The opportunity for mechanic arts, domestic arts and allied courses is entirely wanting. The usefulness of the school would be greatly increased by the introduction of such courses. With the present corps of teachers this is impossible as none of the assistants are specialist in those lines. If, however, we lose any of our teachers, I suggest that the vacancy be filled by someone who can teach some of the subjects at present taught and also make a beginning for us either in mechanic arts or domestic arts. The latter would require a less expensive equipment but I am of the opinion that there is greater need for the former.

Recommendations.

1. Annually there are printed for special distribution, especially outside of the city, 150 copies of the school report. I recommend that the details of the financial report be omitted, as extra expense will be thereby saved and as these figures have no particular interest to outsiders.

I further recommend in this connection that the statement of receipts include under separate heading the amount received from the state under the "literary fund" and the amount of "dog money" that comes from the city under the legal requirements therefor.

2. Because of considerable time lost owing to sickness of teachers, because of the overcrowded condition of some rooms and the need of special work with backward pupils, I recommend the employment of a teacher who shall give all her time to this and similar work.

3. I recommend the provision of extra help so that our floors may be swept more frequently, especially during the fall and spring muddy seasons; and so that the windows may be washed after the fly season is over, and again in the spring if necessary.

4. The following repairs and improvements in our school plant are recommended in what seems to me to be their order of importance.

a Adjustable furniture as suggested elsewhere in this report.

b Increased window area in the high school building.

c Curtains in place of blinds.

d Varnishing interiors of high and Hancock buildings.

e Painting exterior of Nesmith.

f New hard wood floor in third story of high school building.

It is neither necessary nor possible to do all of this work this year but this defines the course of action that seems desirable.

5. I recommend the compilation and printing of the rules and regulations of the Board of Education, a partial draft of which has already been made.

6. Finally I recommend, as last year, a study of our needs with regard to manual, industrial and domestic training.

Conclusion.

I wish to express the appreciation which the teachers feel for the assistance of parents, citizens and local organizations, whose encouragement and support are highly esteemed. The City Council by general and special appropriations have made it possible for us to work under conditions that are better than they have ever been before. Dr. Staples' refusal to be a candidate for re-election to the Board of Education was learned with keen regret by teachers as well as those who have been more closely associated with him in the administration of school affairs.

Respectfully submitted,

W. H. SLAYTON.

HIGH SCHOOL REPORT.

To the Board of Education:

My seventh annual report is herewith respectfully submitted:

Numbers.

The school continues to grow. The last fall the number enrolled was 178, of whom 83 were boys and 95 girls. This is the largest number we have yet had. It was necessary to put in some new desks and the teaching force was severely taxed. Your decision to hire another assistant will make it possible to do as well by these pupils as when the number was smaller. By using the library and the drawing room for recitations we are able to conduct the necessary classes.

It is probable that the school will be still larger next year, since the present senior class was the smallest that has entered the school for a considerable number of years. The smallness of this class was caused by a reorganization in the grades, before these pupils had reached the high school.

The importance to the city of the increased size of the school is evident. Since the city has not increased in population during the same time, it means that a larger proportion of the youth are attending the high school. This will result in a more intelligent and efficient citizenship.

Administration.

The year has been marked by a quiet progress of an internal nature. The program of studies has not been changed from that of the preceding year. This list of subjects may be found in last year's report. The principal endeavor has been to maintain as high a standard as possible.

In one particular we were in a better position to do this than we have been before. For, the year 1911-1912 began with the same corps of teachers that we had during the year preceding. This allowed us to begin in the fall more nearly where we left off in June than heretofore. This is one good result of the policy to pay teachers a salary large enough to retain their services. Several

times in these reports it has seemed necessary to call attention to the frequent change of teachers. It is gratifying to find it unnecessary to do this now.

New text-books have been introduced in several subjects, where the old ones had become out of date. The reference libraries have been greatly improved during the past few years. At the same time there has been frequent consideration of the best methods of presenting studies to pupils of the secondary school grade.

Energy has been expended to prevent failures, without lowering the standard for passing. When pupils have failed in a subject for a term, they have been obliged to make up the work under the direction of the teacher. This takes times, but it pays. Fewer pupils are put back at the end of the year, and some pupils, that are careless about their work, are forced to study, when they would not of their own volition. More pupils leave school because they get behind in their studies than for any other reason. By keeping pupils from failing it is possible to keep more of them in school.

The value of a high school course to any particular pupil depends largely upon that pupil himself. It is a principal of mental action that the mind grows only as it acts. No matter how good a course may be, or how skilful a teacher may be, a pupil will not get much good for himself unless he puts exertion into the study. A successful student is regular in attendance, shows a persistent desire to do good work, and is courteous in manner. If a pupil acts in this way, he is sure to be greatly benefitted by attending a high school.

The best method of determining the standard of a school is to compare it with other schools. This can be done by referring to the reports of the State Superintendent of Public Instruction. The work of the students that go from us to college is another indication. This work has been uniformly good during the last six years. The school, during the year, was approved for another three years by the New England College Certificate Board. This certificate allows us to send graduates to most of the colleges in New England without examination.

Suggestions.

We have now, in addition to the principal, six assistant teachers. The school has reached such a size that it seems advisable to have a sub-master. A man could assist the boys in many ways, especially in athletics, where now it has to be done indirectly through the student organizations by the principal. It is recognized everywhere that athletics are a necessary part of high school life. It is also recognized that athletics need close supervision by a responsible person. The boys need frequent contact with men in the class room also.

The school has gone as far in one direction as it is wise to have it go; it has a very rich program in scientific, linguistic, literary, historical and mathematical lines. The school may be compared in this respect with any of the large high schools of the state. But, with the exception of drawing and the experimental work of the laboratory, the school does not offer courses of a manual nature, such as are getting to be common throughout the country. These include mechanic arts—in wood and iron—agriculture, typewriting, stenography, cooking and sewing. Where these subjects are taught, they are said to improve the interest of the pupils, and to increase the attendance of the school in a marked degree. These studies require a new kind of equipment and a considerable initial expenditure. It seems to be wise to think whether Franklin can introduce any of these subjects.

About fifty pupils regularly come to school for the entire day. For these scholars the noon recess of an hour and a half is longer than is valuable. For them it would be better to have but one session. There are ways, too, in which the rest of the school would be benefitted by a single session. This topic has been discussed at times before, but then the school was smaller and the conditions different.

Respectfully submitted,

HARRY PREBLE SWETT.

REPORT OF SUPERVISOR OF MUSIC.

Mr. W. H. Slayton, Superintendent of Schools:

No changes have been made in this department during the past year.

The Harmonic Music course, which was introduced in 1909, has now regularly reached the fifth grades. It is true the sixth grades are now using the books of the same (Harmonic) course, but only because the Modern Course books which they had used were badly worn and it was not thought advisable to purchase a new set of them for the remainder of the year as the "Harmonic" would reach grade VI next September, and so we are already supplied with books and charts for next year.

The seventh and eighth grades are using the "Introductory Third Reader," and the "Cecilian" books we introduced last year.

The high school work is not at all satisfactory but the work being done in the grades, with a possible exception, I feel well pleased with. I recently asked each grade teacher in the Nesmith building how her present class compared with their classes two or three years ago and all said there was a marked advance.

I had felt the same and was glad to hear them say what they did for I believe in music.

Before I ever had thought of making it my profession, music had been my most enjoyable recreation for years, and so believing in it and knowing the pleasure I, myself had gained from it, I welcomed the opportunity to help others to enjoy it. May I quote from the principal of a city school in Massachusetts? "Next to religion music is perhaps the most universal and most potent influence in human development. Combined with religious sentiment, its influence is irresistible, for in it the loftiest thought finds its most perfect expression."

"Potent as the influence of music is when heard from without, it makes its deepest impression when it becomes the means by which the human soul expresses itself to its Maker."

"Hence it is essential that the youth in our schools should be instructed with utmost care in the art of music; that they should be trained not only by imitating their teachers, but that they should master the symbols by which music is expressed, and become able to interpret

the thoughts of the great masters for themselves, and to join intelligently in the execution of those deep harmonies which require the union of many voices for their complete expression. Appreciation of, and love for that which is highest and best, can only be obtained by prolonged and serious attention."

"The achievement of any good of a lofty and lasting character, demands patient toil along a systematic course. The instant the pupil applies himself with a zeal worthy of the end to be obtained, he finds that the steps which were before but drudgery, are glorified by the inward consciousness of progress secured by work well done."

Before closing I wish to express my thanks to all who by words and deeds have helped to make my year a pleasant, and, I earnestly hope, a profitable one.

Respectfully submitted,

FRED H. OSGOOD.

Feb. 8, 1912.

REPORT OF SUPERVISOR OF DRAWING AND ELEMENTARY HAND WORK.

Mr. W. H. Slayton Superintendent of Schools:

I herewith submit my fourth annual report:

The only two points which seem this year to need special mention are:

1. Manual work in the upper grades.
2. Drawing as an elective in the high school.

1. In my report last year I spoke of the experiment of teaching sewing to the girls of the seventh and eighth grades. The work was continued until the close of the school year, with fairly satisfactory results, though if it were begun in the fourth or fifth grade, I feel sure that the interest would be greater and therefore more thorough work would be done. Some of the parents may feel, and with good reason, that the schools are taking upon themselves the teaching of subjects which would be better taught in the home, but many of them are glad to have the home instruction supplemented by that of the school, and in every class there are those who, for various reasons, have no other training in the "domestic arts" than that given in the schools. Besides, sloyd, metal work, sewing, weaving, pasteboard construction or any

branch of manual training taught in connection with drawing and design is given an additional interest. Naturally, a girl enjoys embroidering and wearing a collar or a belt that she herself has designed, and a boy likes better and gets infinitely more benefit from a problem in woodworking, when something of the planning, either of construction or decoration is left to his own ingenuity. It is generally agreed that the purpose of manual training is not alone the development of technical skill, but what is much more important, the exercise of judgment and good taste. Under ideal conditions, every pupil in a class doing manual work is free to work out his own idea, and though the same problem in construction given to a class of forty presents a limited opportunity for individual invention or originality, all the hand work undertaken in our schools from the first grade up has been intended and planned to develop an appreciation of those things that are simple, appropriate and tasteful in design, whether in dress, in home decoration or what we are accustomed to term the higher forms of art.

2. I am glad to be able to report a larger number of pupils electing drawing in the three upper classes of the high school than in any other year since I have been connected with the Franklin schools. Forty minutes a week or twenty-four hours of the school year is very little time to take from the required school work, and yet in that little time, the mechanical classes are given some slight preparation for work along the same lines in the colleges and technical schools, and a knowledge of working drawings and projection which cannot fail to be of use in almost any occupation. Of course, little in actual results, either in the mechanical or freehand drawing, can be obtained in such limited time, but both branches are and should be regarded as practical and of much value to the average boy or girl, whether they are continued in other schools or not.

During my absence of the fall term, the drawing in the high school was omitted. That in the grades was carried on without supervision, though largely in accordance with the plan of previous years.

Too much credit cannot be given to the conscientious teachers, who have worked faithfully throughout the year to accomplish the desired results.

Respectfully submitted,
JOSEPHINE EMERY.

THE REPORT OF THE SCHOOL NURSE.

Mr. W. H. Slayton Superintendent of Schools:

School inspection was begun in November. It was decided to have each school visited once a week, two half-days being taken for that purpose. By inspection it is possible to discover defects which tend to impede the child's progress in school, prevent his normal development or cause him needless suffering. During the few remaining weeks of the term the hours were spent more especially in close observation, picking out those who seemed in more urgent need of treatment. Seventy-one visits were made to schools. About seventy-five throat examinations were made for the detection of signs of diphtheria of which at that time there were a few cases among the school children. At the time of examination no cases were discovered.

Many examinations have been made for enlarged tonsils and adenoids; in eleven cases notices have been sent to the parents that such defects have been found and advising that the child be taken to the family physician. In some cases the notice to the parents is all that is necessary, the child immediately being put under treatment. A similar notice is sent to the family physician at the same time. Not more than three cases out of the eleven reported have received necessary treatment.

Several cases of defective eye-sight were discovered but very little was accomplished along that line.

There is great need of dental work among the school children. It is said that there are ten million school children in the United States suffering from the direct effect of decaying teeth and unsanitary mouths. There is not one single thing more important to the public in the whole range of hygiene than the hygiene of the mouth.

In order that school inspection may be at all successful we must have the help and co-operation of the parents.

Respectfully submitted,

CORA SUMMERS.

A resolution relating to the discontinuance of the old highway near the New Hampshire Orphans Home.

Resolved, by the City Council of the City of Franklin, as follows:

Resolved by the City Council that the highway leading from the South East Corner of the Webster Cemetery in Franklin Southerly to the Westerly line of land of the Northern Railroad at the next railroad crossing be and hereby is discontinued so far as the city has power so to do, and that the City Solicitor be directed to apply to the Superior Court for its consent to such Discontinuance.

Approved.

SETH W. JONES, *Mayor*.

Passed by the City Council October 2, 1911.

In the year of our Lord one thousand nine hundred and eleven.

A resolution relating to a Machine Gun Company.

Resolved, by the City Council of the City of Franklin, as follows:

That we are heartily in favor of the organization of a Machine Gun Company in Franklin and in case the Governor and Council shall see fit to establish such a company here we pledge it all reasonable support and assistance.

Approved.

SETH W. JONES, *Mayor.*

Passed by the City Council October 26, 1911.

ORDINANCES.

An ordinance relating to sewers.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That the resolution of the City Council adopted May 10, 1895, relating to sewers, be, and the same hereby is so far modified as to provide for a special assessment or charge only on such persons or corporations as have already, or may hereafter, connect with the new system of sewerage.

Sec. 2. That no person or corporation shall be required to connect with any sewer except by direction of the Board of Health of the city or the City Council.

Sec. 3. All persons who have already, or shall hereafter connect with the new system of sewerage, shall pay to the city the following sums, to wit: For each tenement of seven rooms or less, fifteen dollars; for each additional room in a tenement in excess of seven, two dollars.

Space in buildings occupied wholly or in part for stores, manufacturing, or other purposes than private barns, cellars and store houses or store rooms, or outbuildings, shall be reckoned and paid for on the basis of one hundred and fifty square feet of floor space as one room when connected with the sewer.

Sec. 4. All persons who have already connected with the new system of sewerage shall pay to the City Clerk the amounts for which they are liable under the provisions of Section three within thirty days after the passage of this ordinance, with interest thereafter, and the City Clerk is hereby directed to collect the same.

Sec. 5. No person shall hereafter connect with any public sewer without first obtaining a permit therefor signed by the City Clerk and countersigned by the Highway Agent, and before such permit is issued to connect with the new system of sewerage such person shall pay

to the City Clerk the sums for which he would be liable under the provisions of Section three.

Sec. 6. In any case where connection with a sewer is made by the Board of Health, through the neglect or refusal of the owner to comply with their orders so to do, the amount provided to be paid therefor in Section three shall become at once due and payable and collected by the City Clerk, but the City Clerk may issue a permit in such cases without prepayment.

Sec. 7. Every permit to connect with any public sewer issued by the City Clerk shall contain the name of the owner, the number of tenements and rooms in each for which the permit is granted, the location of the tenements and amount paid for such permit, a record of which shall be made by the City Clerk in a book kept for that purpose.

Sec. 8. All connections with any public sewer shall hereafter be made under the supervision of the Highway Agent and in accordance with his directions, and it is hereby made the duty of the Highway Agent to see that all such connections are securely made and in the safest and best manner, and that only proper pipe and other materials are used.

Sec. 9. No person or corporation shall deposit any garbage, offal, filth or any substance having a tendency to obstruct the flow of sewage in any manhole, flush tank or sewer opening.

Sec. 10. All fixtures connected with private sewers leading to the public sewers shall be provided with suitable traps and strainers to prevent the introduction of all solids or anything that would obstruct the flow in the pipes.

Sec. 11. Any person violating the provisions of Sections five and eight, nine and ten of this ordinance shall be fined not less than twenty dollars.

Sec. 12. This ordinance shall take effect upon its passage.

Approved. E. H. STURTEVANT, *Mayor*.
Passed May 4, 1896.

An ordinance relating to building in the compact part of the city of Franklin, as follows:

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No buildings shall hereafter be erected on the north side of Central street, between Sanborn bridge and Daniell bridge; on the south side of Central street between Sanborn bridge and Church street; on Franklin street between Central street and Church street, except the same is constructed with solid outside brick walls at least twelve inches thick.

Sec. 2. This ordinance shall take effect upon its passage.

Approved.

E. H. STURTEVANT, *Mayor*.

Passed May 4, 1896.

An ordinance relating to sewers and in amendment of an ordinance passed May 4, 1896.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. Any person connecting with a public sewer, who will sign a written request therefor, may pay an annual rental or tax as follows: For each tenement of seven rooms or less, \$2. For each additional room, in a tenement, thirty cents payable in advance. The first payment when the permit is granted, subsequent payments to be collected by the Collector with other taxes.

Such rental shall cease whenever such party shall pay the fee heretofore prescribed and any sums due for such rental.

Sec. 2. This ordinance shall take effect upon its passage.

Approved.

E. H. STURTEVANT, *Mayor*.

Passed November 2, 1896.

An ordinance for the promotion of cleanliness in public streets and places.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No person shall distribute in any public highway within the city, any printed hand-bill, circular or advertisement of any kind.

Sec. 2. No person shall place, throw or deposit upon any public highway, within the city, or upon any sidewalk therein, any paper, garbage, waste or refuse matter of any kind.

Sec. 3. No person shall spit upon the floor of any public conveyance, shop, store, hall, church, schoolhouse, railroad station or other public building in said city, or upon the steps of said conveyances or buildings, or upon the sidewalk of any public street or way in said city.

Sec. 4. Any person convicted of any violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 5. This ordinance shall take effect from and after its passage.

Approved. FRANK H. DANIELL, *Mayor*.

Passed October 2, 1899.

An ordinance relating to cemetery trust funds.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That Chapter 40, Session Laws of this state for 1899, in which it is provided that (Section 1):

"Any town or city which now holds, or hereafter may hold in trust, by bequest or otherwise, any fund for the care of any cemetery or private lot therein, may pay the same into the town or city treasury, and so long as the same remains therein, said town or city shall pay thereon an annual income at the rate of three and one-half per cent, which income shall be expended in accordance with the terms of the trust by which said fund or funds is held. (Section 2.) This act shall not be in force except in such towns and cities as by vote of the town, or City Council shall so elect."

Be and hereby is adopted and in force in this city, and the City Council so elects.

Sec. 2. This ordinance shall take effect and be in force upon its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.

Passed September 3, 1900.

An ordinance in relation to the duties of the City Auditor.

Be it ordained by the City Council of the City of Franklin as follows:

It shall be the duty of the City Auditor annually, in the month of December, to examine the accounts of the Collector of taxes and to notify every delinquent tax-

payer of the amount of his taxes remaining unpaid, by mailing to each in a sealed envelope a copy of this ordinance, together with a statement of the balance due as it appears upon the tax list.

Approved. RUFUS G. BURLEIGH, *Mayor*.
Passed December 3, 1900.

An ordinance in relation to licensing dealers of junk.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That all dealers in old metals, rubbers, rags, or junk of any sort shall be licensed.

The said license shall be issued by the City Clerk upon recommendation of the Mayor.

The cost of said license shall be three (3) dollars per annum, dating from April 1, for the year ensuing.

Sec. 2. That no dealer shall buy of any minor, under fifteen years of age, any old metals, rubber, rags or junk of any sort, without written consent of their parents or guardian.

Sec. 3. Any person convicted of violating the provisions of Sections 1 and 2 of this ordinance shall be fined a sum not exceeding twenty (20) dollars for each offense.

Sec 4. This ordinance shall take effect upon its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.
Passed April 1, 1901.

An ordinance relating to the names of streets and their numbers.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That the names of the streets of the city of Franklin shall be as indicated on the map in the annual report of the city of Franklin, of 1895, with addition of new streets and avenues since laid out with the following exceptions: That the southern section of Pemigewasset street, running east from North Main street, shall be known as Gerrish street. That the street running from Depot street to Franklin Heights shall be known as Summit street. That the street leading north from Summit street to Pleasant Valley shall be known as Valley street. That the street west of Valley street,

leading south from Summit street, shall be known as Gilman street. That the street running north from Central street near Republican bridge, to Cate brook, shall be known as Glenwood avenue. That the street running northwest from Bow street over Cheney hill to Glenwood avenue shall be known as Cheney street. That the street running west from Bow street past what is known as Davis' block to Glenwood avenue, shall be known as Glen street. That the section of Maple street, running north from foot of Willow hill, then east to that section of Maple street running north, shall be known as Maple square. That the section of Winnipiseogee street running south from Central street to that section running east, shall be known as River street. The street running east, then north from Franklin street, opposite Church street shall be known as Ayles Court. That the section of High street east of the Franklin & Tilton R. R., shall be known as West High street. That the street running east from Memorial street to Smith street, shall be known as Canal street. That the name of Peabody avenue shall be changed to Peabody place. That the name of Railroad avenue shall be changed to Railroad street.

Sec. 2. The Mayor and Council shall from time to time, as the convenience of the public may require, designate the numbers to be affixed to the buildings on the several streets and squares in the city, and shall designate the names of new streets when laid out. In all streets the odd numbers shall be on the right hand side, and the even numbers on the left hand side of the streets in the progressive order of numbering, commencing with the lowest numbers and proceeding therefrom with increasing numbers as follows: The numbering of North Main street shall commence at the southerly end at junction of Central and South Main streets. The numbering of all streets connecting with North Main shall commence at North Main street. The numbering of South Main street shall commence at the northerly end at junction of Central and North Main streets. All streets connecting with South Main shall commence numbering at South Main street. The numbering of Summit, Wells and Salisbury streets shall commence at Depot street. The numbering of Valley and Gilman streets shall commence at the westerly end at junction of North and South Main streets. All streets connecting

with Central street, except Bow and Pearl streets, shall commence numbering at Central street. Bow street shall commence numbering at what is known as Paper Mill square. All streets connecting with Bow street shall commence numbering at Main street. The numbering of South Main street shall commence at Glenwood avenue. The numbering of Pearl street shall commence at the southerly end. The numbering of Canal street shall commence at Memorial street. The numbering of School, West High and Winnipiseogee streets shall commence at River street. The numbering of Ayles court and Grove street shall commence at Franklin street. The numbering of Railroad, Elkins and View streets shall commence at School street. The numbering of East High and Russell streets shall commence at Railroad street. The numbering of Spring street shall commence at Prospect street. The numbering of all streets running east from Prospect street shall commence at Prospect street. The numbering of all streets east of Prospect street running parallel with Prospect street shall commence numbering at the northerly end. All streets connecting with Sanborn street shall commence numbering at Sanborn street.

Sec. 3. Every entrance to a building fronting the street shall be designated by a separate number. In the residential portion of the city every lot with a twenty-five-foot front shall be designated with a separate number, and in the business portion of the city every lot with a twelve and one-half foot front shall be designated with a separate number. The business portion of the city is embraced within the following limits: North and South Main street between Webster and Depot streets, Central street between River street on the west and Bow street on the east, Smith, Canal, Memorial and Church streets and Franklin street from Central to School streets.

Sec. 4. Any person who shall affix or suffer to be affixed to or shall allow to remain upon any building, any different number from the one designated by the Mayor and Council, shall be fined not less than one or more than five dollars, and a like penalty for every day he shall suffer such building to be so numbered after his first conviction of violating the provisions of this section.

Sec. 5. That measurement of each street in the city shall be made according to provisions of section three of this ordinance, determining the correct number of

every entrance as provided for in section three of this ordinance, and that a correct record of same shall be kept on file in the office of the City Clerk in a convenient manner for the reasonable use of the public at all times. That there shall be transmitted by the person authorized by the committee on ordinances to make said survey, a notice and statement giving name of the street, the name of the owner, the name of the occupant, and the number of the building, together with instructions for procuring and fixing same.

Sec. 6. That the owner of the property shall within sixty days after receiving said notice as per section five of this ordinance, cause to be affixed to every entrance of a building fronting the street, mentioned in said notice, a metallic or other suitable number at least two inches in height, and so situated as to be plainly visible at all times from the street.

Sec. 7. If the owner of any building, after receiving said notice as per section five of this ordinance, fails to comply with the provisions of section six of this ordinance, the said owner shall be fined not less than one or more than five dollars, and a like penalty for every day which the said owner shall neglect so to do after his first conviction.

Sec. 8. This ordinance shall take effect on its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.

Passed April 1, 1901.

An ordinance in relation to attendance of scholars.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. Any child in the city between the ages of six and sixteen years, without a regular and lawful occupation, who shall, except in cases of ill health, be absent from school more than one day during the space of any one month, unless excused by the teacher of the child, shall be fined not exceeding ten dollars for each offense.

Sec. 2. This ordinance shall take effect on its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.

Passed May 13, 1901.

An ordinance relating to fire alarms.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. When an alarm of fire has once been given upon the fire alarm system of the city, it shall be the duty of the person giving the alarm to remain at the box in charge of the same until the arrival of some person detailed to guard such box, except when the fire is upon the premises of the person giving such alarm.

Sec. 2. No person shall ring in a second alarm except under the direction of an engineer of the fire department.

Sec. 3. The chief engineer, or in his absence one of the assistant engineers, shall at once, upon the sounding of an alarm upon the fire alarm system, detail some person to supervise and watch the box from which the alarm was given, and it shall be the duty of such person to remain at said box and protect the same from any person interfering therewith until he is relieved by said engineers.

Sec. 4. Any person violating the provisions of this ordinance or disobeying the orders of an engineer under it shall be liable to a fine not exceeding twenty dollars for each offense.

Sec. 5. This ordinance shall take effect on its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.

Passed June 3, 1901.

An additional ordinance for the promotion of cleanliness in public streets and places.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No person or corporation in possession or control of any real estate adjoining a public street, shall place or permit to remain on the premises so occupied by him, any paper or waste matter or substance of any kind, in such a position or place that the same can be carried by the wind upon a public street.

Sec. 2. Every person or corporation keeping for sale at retail on premises adjoining a public street, fruit, nuts, or other goods from which waste is liable to be thrown upon such street, shall keep the highway abutting on the premises occupied by him to the center thereof free and clear of waste substances and matter from such class of goods as are kept for sale by him at such store, and shall

keep and maintain in a wholesome condition all such receptacles for waste matter as may be located by the city upon or adjoining the premises occupied by him.

Sec. 3. No person shall injure, disfigure, destroy or remove any receptacle for waste matter placed by the city upon any public street or place, or place therein any substance for which such receptacle was not designed.

Sec. 4. It shall be the duty of the city marshal and every policeman when on duty to see that this ordinance is strictly observed, and when unable to cause the removal of any such waste matter from the streets by the person depositing the same, he shall forthwith remove the same himself.

Sec. 5. Any violation of this ordinance shall be punished by a fine not exceeding ten dollars.

Sec. 6. This ordinance shall take effect on its passage.

Approved. RUFUS G. BURLEIGH, *Mayor*.
Passed Aug. 5, 1901.

Resolved, by the City Council of the City of Franklin, as follows:

That the following rule for governing the action of the Council be and the same hereby is adopted.

Rule 1.

No vote shall be adopted by the Council appropriating money, or incurring a debt exceeding five hundred dollars, at the same meeting at which the resolution is proposed, except by vote in favor thereof by seven members at least of the Council taken by a yea and nay vote.

Approved. RUFUS G. BURLEIGH, *Mayor*.
Passed Nov. 4, 1901.

An ordinance for the prevention of accidents upon the highways.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No person shall drive any horse upon the highways of the city with a cow-bell or any other thing attached to the horse, harness or vehicle, that makes an unusual noise and frightens horses.

Sec. 2. Persons directing automobiles or other vehicles propelled by motors upon the highways of the city, shall upon meeting or passing other vehicles drawn

by horses, which are frightened thereby, come to a full stop or reduce the rate of speed to such extent as necessary to avoid accidents resulting from such frightened horses.

Sec. 3. Any person convicted of a violation of either section of this ordinance shall be fined not exceeding ten dollars.

Sec. 4. This ordinance shall take effect on its passage.
Approved. HARRY W. DANIELL, Mayor.

Passed April 9, 1902.

An ordinance in relation to removal of buildings.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That no building or buildings in the city shall be moved through highways except by owner first obtaining permit from the City Council.

Sec. 2. This ordinance shall take effect on its passage.
Approved. HARRY W. DANIELL, Mayor.

Passed Aug. 4, 1902.

In the year of our Lord one thousand nine hundred and four.

An ordinance relating to billiard, pool and lunch rooms.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No owner or manager of a public pool or billiard room shall allow his pool or billiard tables to be used after ten o'clock at night.

Sec. 2. Any person violating this provision shall be punished by a fine of ten dollars.

Sec. 3. No keeper of any eating place, lunch counter or room shall keep his place open after eleven o'clock at night.

Approved. ISAAC N. BLODGETT, Mayor.

Passed March 7, 1904.

In the year of our Lord one thousand nine hundred and four.

An ordinance relating to injury to the highways and other city property.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No person shall with any trenching tool or machine displace the surface of any highway within the city boundaries without permission from the Council or from the chief of the highway department, as the case may be.

Sec. 2. No person shall erect, raise or place any sign, bill-board or other obstruction on or within any highway, nor shall any such person erect, raise, place or affix sign, bill-board or advertisement on any lands of the city or any building thereon without consent previously obtained from the Council or head of the appropriate department.

Sec. 3. Any person violating any provisions of this ordinance shall be fined ten dollars for each and every offense.

Approved. ISAAC N. BLODGETT, *Mayor*.

Passed May 2, 1904.

An ordinance relating to pawnbrokers.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No person shall carry on the business of a pawnbroker, within the City of Franklin, unless he is duly licensed therefor by the Board of Mayor and Council. Said Board of Mayor and Council shall, upon application, issue licenses to do business as pawnbrokers to such persons as said Board deem proper; and such licenses shall be for one year from their issue, but may be revoked at any time by said Board of Mayor and Council whenever in their opinion the public good requires. Such licenses shall designate the place where the person licensed may carry on his business, and he shall not carry on the business at any other place within the city; and the fee for such license shall be ten dollars per year.

Sec. 2. Every person licensed as aforesaid shall keep a book or record at his place of business in which he shall enter in English at the time of receiving the same, a minute description of any article left for pawn, particularly mentioning any prominent or descriptive marks on the same, with the name, age and residence, giving the street and number, where possible, of the person from whom he received it, noting also the day and hour and the amount paid or loaned thereon; and such book or record, and the articles left for pawn, shall at all times

be open to the inspection of the Chief of Police or any person authorized by him. No person licensed as aforesaid shall directly or indirectly receive any article in pawn from any minor, knowing or having reasonable cause to believe him to be such, without the consent in writing of the parent or guardian of such minor. And all persons so licensed, when requested to do so by the Chief of Police, shall make a daily statement to him of the articles left with them for pawn.

Sec. 3. If any person shall do business as a pawn-broker without obtaining such license, or if any person licensed as aforesaid shall violate the other provisions of this ordinance, or any of them, he shall be punished therefor by a fine not exceeding ten dollars for each offense.

Sec. 4. This ordinance shall take effect upon its passage.

Approved.

GEORGE E. SHEPARD, *Mayor*.

Passed Nov. 6, 1905.

In the year of our Lord one thousand nine hundred and nine.

An ordinance relating to licenses for moving picture shows.

Be it ordained by the City Council of the City of Franklin as follows:

That the licenses for moving picture shows shall be one dollar per night and payable monthly in advance.

Approved.

ENOS K. SAWYER, *Mayor*.

Passed March 1, 1909.

In the year of our Lord one thousand nine hundred and nine.

An ordinance relating to the speed of automobiles and motor cycles.

Be it ordained by the City Council of the City of Franklin as follows:

No automobile or motor cycle shall be operated upon any public highway outside the business district or the compactly built sections of the city at a speed greater than twenty-five miles an hour, or within the business district or compactly built sections of the city at a speed greater than ten miles an hour.

All ordinances inconsistent with this ordinance are hereby repealed.

Approved.

ENOS K. SAWYER, *Mayor*.

Passed May 17, 1909.

In the year of our Lord one thousand nine hundred and nine.

An ordinance relating to the fence west of the Free Public Library.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. The sitting upon or leaning against the fence or rail extending west from the Free Public Library to the bridge across the Winnipiseogee River shall constitute a misdemeanor, and any person guilty of said offense shall be punished by a fine of not less than ten dollars.

Sec. 2. This ordinance shall take effect upon its passage.

Approved.

ENOS K. SAWYER, *Mayor*.

Passed July 6, 1909.

An ordinance in relation to street signs, awnings and trees.

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. No person shall place or establish any awning or shade before his, her, or their place of business or dwelling house over any part of any street or sidewalk, unless the same shall be composed of cloth and safely fixed and supported by strong iron rods or railings, so as in no wise to incommode passengers, and so that the lowest part of such awning or shades shall be at least seven feet in height above the sidewalk; nor shall any sign or any other fixture or construction be placed on, over, or across any part of any street or sidewalk. Nor shall any person encumber the street or sidewalk before his place of business, or elsewhere with any boxes, or merchandise.

Sec. 2. It shall be the duty of the chief engineer to cause to be removed all awnings, shades, signs, or other fixtures or constructions, constructed otherwise than as provided above.

Sec. 3. No person shall allow the branch or branches of any shade, ornamental or other tree on his, her or their premises to extend over any street or sidewalk, unless the same shall be at least seven feet in height above the street or sidewalk.

Sec. 4. It shall be the duty of the tree warden to remove or cause to be removed the branch or branches of all shade, ornamental or other trees projecting over any street or sidewalk if the same shall be less than seven feet in height above the street or sidewalk.

Sec. 5. Any person or persons violating the provisions of this ordinance shall be fined not exceeding ten dollars for each offense.

Approved.

ENOS K. SAWYER, *Mayor*.

Passed by the Council October 3, 1910.

In the year of our Lord one thousand nine hundred and eleven.

An ordinance in relation to licensing dealers of junk

Be it ordained by the City Council of the City of Franklin as follows:

Section 1. That all dealers in old metals, rubbers, rags or junk of any sort shall be licensed. The said license shall be issued by the City Clerk upon recommendation of the Mayor. The cost of said license shall be ten (10) dollars per annum, dating from April 1, for the year ensuing.

Sect. 2. That no dealer shall buy of any minor, under fifteen years of age, any old metals, rubber, rags or junk of any sort, without written consent of their parents or guardian.

Sect. 3. Any person convicted of violating the provisions of sections 1 and 2 of this ordinance shall be fined a sum not exceeding twenty (20) dollars for each offence.

Sect. 4. All ordinances and parts of ordinances inconsistent herewith are hereby repealed and this ordinance shall take effect upon its passage.

Approved.

SETH W. JONES, *Mayor*.

Passed December 4, 1911.

VITAL STATISTICS.

TO THE CITY COUNCIL OF THE CITY OF FRANKLIN: In compliance with an act of the Legislature, passed June Session, 1887, requiring "clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the municipal officers for publication in the annual report," I hereby submit the following:
